

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. MEN who engage in life insurance field work should do so with the idea in mind that it will be a life vocation. It is a business that is bound to endure, and the opportunities of which for the future are almost incomprehensible.

It is a business that makes its appeal to the best in a man, and the history and traditions of the Mutual Benefit Life Insurance Co. since its organization in 1845 are an incentive and an inspiration to any one. Over \$350,000,000 has been paid by the Mutual Benefit to policyholders and beneficiaries. The good that this has done is immeasurable.

For men with the service spirit there are big opportunities with the Mutual Benefit. The demand of the day is for MEN—four-square men with keen minds, strong bodies, brave souls and willingness to work hard. The opportunities of the business were never greater.

And here is a cardinal fact to be remembered in connection with Mutual Benefit service. You will never be called upon in your work for this company to do or say anything which your conscience cannot approve. Men and women are not with the Mutual Benefit for "bread and butter reasons" alone.

Send for our leaflet "To the Seekers for Success" and give us an opportunity to tell you of the Salient Points which distinguish this Company.

Ready Reckoner

FOR
EARNED AND UNEARNED
PREMIUMS.

READY RECKONER FOR EARNED AND UNEARNED PREMIUMS. A Series of Tables designed for the Speedy Calculation of the Sums earned and unearned on Policies of Insurance; by the late WILLIAM ELLSWORTH, Jr., formerly of the Continental Fire Insurance Company.

This new and important work is designed to furnish representatives of Fire Insurance Companies the means for instantaneously computing earned and unearned premiums. The method is the simplest yet devised, and can be comprehended by any one who is competent to understand the easiest rules of arithmetic. The tables prepared furnish a ready-made answer to all the problems relating to premiums that underwriters are required to solve. WM. ELLSWORTH, Jr., author of the Ready Reckoner, was a well known mathematician, who was long connected with the Continental and Niagara fire insurance companies, and later with the Caledonian Insurance Company. THE READY RECKONER is the result of his daily experience, and is designed to simplify the calculations required of every underwriter. 12mo., 80 pp. Printed on fine paper and substantially bound in half leather.

Price, \$5.00 Per Copy.

PUBLISHERS' ANNOUNCEMENT

For forty-two years THE INSURANCE YEAR BOOK has appeared annually, expanding year by year with the growth of the insurance business, and adding new features to its mass of information as the conditions demanded. The publishers therefore take pride in presenting the forty-third annual edition, and in acknowledging the widespread recognition that has been accorded this publication, both in this country and abroad.

The 1915 edition of the YEAR BOOK is issued in two volumes, as heretofore, one being devoted to LIFE, CASUALTY and MISCELLANEOUS INSURANCE, and the other to FIRE and MARINE INSURANCE. Each volume contains the standard statistics regarding companies and their transactions that are necessary to perfect their history from year to year. These statistics are brought forward to include their transactions to December 31, 1914. Some of the principal features of this volume are briefly summarized as follows:

LIFE AND MISCELLANEOUS VOLUME

This volume covers statistics and information concerning legal reserve life insurance companies, assessment life associations, fraternal orders, stock and mutual casualty companies, assessment accident and sick benefit companies, and a large amount of data covering foreign companies and business in foreign countries. A special section is devoted to Canadian organizations and business.

The Directory of Insurance Agents (with supplemental lists of Insurance Attorneys and Medical Examiners) occupies 275 pages, 4 columns to the page, and comprises about 62,000 names, being the most comprehensive list of its kind extant.

In addition to the foregoing, there is a considerable amount of other useful information presented regarding various features of the insurance business, each adding its quota to the value of this volume, which, aside from advertising matter, contains over 1,200 pages. The Fire and Marine volume is similarly comprehensive in covering its peculiar field.

Our thanks are due to the heads of Insurance Departments of the various States and to officers of companies for their courtesy and promptness in furnishing us with desired information.

STATUTORY REQUIREMENTS

SYNOPSIS OF THE STATUTORY REQUIREMENTS OF THE SEVERAL STATES AND TERRITORIES AS THEY APPLY TO LEGAL RESERVE, OLD LINE LIFE INSURANCE COMPANIES OF OTHER STATES

In the following pages will be found concise statements of the statutory requirements for the admission of life insurance companies to do business in the respective States. In this brief form, the synopses are intended more as a hint than an actual guide, for it is not anticipated that any company in entering a State would be satisfied with anything less than the statutes themselves as their reliance as to conditions. Our summary, however, may be accepted as correct as far as it goes.

It has been our aim in preparing these synopses of the statutes to secure uniformity for all the States and to give the essential requirements in as brief a space as possible consistent with the statement of the facts. The synopsis for each State was sent to the supervising officer of such State and returned to us with his approval to date, or with such corrections as he deemed essential. We believe that the information given in this condensed form is as correct as it is possible to make it and will be sufficient to indicate to all interested the statutory requirements of the several States and Territories.

ASSESSMENT ASSOCIATIONS AND FRATERNAL ORDERS

The following brief synopses of the laws of the different States regarding the admission of assessment associations and fraternal orders will indicate the special requirements. For names of supervising officers see list of State officials.

ALABAMA.

The law of Alabama distinguishes between mutual aid associations and assessment life associations. Mutual aid, benefit and industrial companies or associations are defined as those issuing insurance against contingencies such as the birth or death of a child, upon marriage, death, sickness, or physical disability. The association's charter, together with the constitution, by-laws and certificate of membership or policy, must be submitted to the Insurance Commissioner; a membership of 500 bona fide members must be maintained, and from \$1000 to \$5000, according to amount of policy, weekly benefit or death indemnity, paid in as a benefit fund. Said fund may be in cash or satisfactory securities deposited with the Department. Annual reports to be filed by March 1. Tax, one per cent on net premiums and a license fee of \$20; Alabama companies are allowed to set off against said licenses and taxes such amounts as may be paid as tax upon property of such company. The Insurance Commissioner shall act as attorney for service. The Insurance Commissioner has supervision of mutual aid and assessment life associations. Assessment companies must have 100 members and \$250,000 insurance in force to procure a charter. A deposit of \$5000 with the State is required upon receipt of charter, and \$1000 thereafter for each million at risk up to \$100,000. No policyholder can be held liable for losses or liabilities of an association by reason of his being a member thereof. Assessment companies of other States must have on deposit in the State where it was incorporated at least \$100,000 for the benefit of all the policyholders. Annual statements must be filed on or before March 1, showing the condition of the company on December 31 preceding, and its transactions for the year. Fee, \$101. The amount of every contingency insured against must be specifically stated in the policy.

Fraternal Orders.—The requirements of fraternal orders are embodied in an act which is, without amendment, the Uniform Fraternal bill agreed upon by the national fraternal organizations and the convention of Insurance Commissioners. This act defines fraternal benefit societies and their form of government, provides what form of certificates shall be issued, how and where funds may be invested, requires annual statements, and gives the Commissioner power to examine into the affairs of any society at his discretion. The legal minimum standard of valuation of certificates is fixed as the National Fraternal Congress mortality table, with interest assumption of not more than four per cent.

ARIZONA.

No life insurance company or association, other than fraternal beneficiary associations which issued contracts, the performance of which is contingent upon the payment of assessments or calls upon its members, shall do business with this State, except such companies or associations as now are licensed to do business within this State, and which shall value their assessment policies or certificates of membership as yearly renewable term contracts according to the standard of valuation of life insurance policies prescribed by the laws of this State. Every such company or association must have assets of at least \$200,000 invested in securities such as are approved by this act, and must have paid in full all legal death claims for the last twelve months. Every such company or association shall, on or before February 15 of each year, file with the Corporation Commission a statement, upon a form to be prescribed and furnished by the Corporation Commission, showing the true condition of the company or association, as of December 31 next preceding, and shall pay a premium tax as otherwise provided in this act.

ARKANSAS.

Arkansas has no special laws relating to assessment associations, but every insurance company without capital, seeking to do business in the State, is required to execute a bond in the sum of \$20,000 for the protection of policyholders, to be approved and filed with the Auditor of State. Fraternal orders file a bond of \$10,000.

LIFE INSURANCE HISTORY

YEARLY BUSINESS OF ACTIVE UNITED STATES LIFE INSURANCE COMPANIES FOR TWENTY YEARS, 1895-1914.

The first State insurance department in the United States was established by act of the Massachusetts Legislature in 1855, and since that time annual reports have been issued by an increasing number of departments, and with growing completeness and fullness of detail, until at the present time nearly every feature of the insurance business is fully reported and brought under review for the enlightenment and benefit of the general insuring public.

There are now over two hundred and sixty active level premium American life insurance companies that are licensed and report to the various insurance departments, the principal items of whose statements are presented in the following pages, thereby saving laborious research through the various volumes of insurance reports. The figures in this department cover the twenty years 1895-1914, inclusive, for all active organizations.

A complete statistical history of all active United States life insurance companies, from the date of organization to the close of 1910, is contained in the work *Life Insurance History, 1843-1910*, published by The Spectator Company, price \$5. A copy of that work, in connection with the annual volume of *The Insurance Year Book*, will show the entire history of the life insurance business to date.

For lists of officers and directors see pages immediately following this department.

Capital, \$4,000,000.

WHAT IS REQUIRED OF COMPANIES DOING BUSINESS IN THE DOMINION.

THE INSURANCE ACT, 1910, was passed during the session of the year 1910 of the Dominion Parliament and became law on May 4, 1910. The Consolidated Act in force up to that time was repealed, with the exception of sections 49, 51, 52 and 71, which remained in force until January 1, 1911, and were repealed on that date.

Under the Insurance Act, 1910, no company or underwriters or other person can do business in the Dominion without obtaining a license from the Minister of Finance. In order to obtain such a license every life company and every fire company must deposit with the Receiver-General the sum of fifty thousand dollars.

It is provided, however, that in case of any such company incorporated elsewhere than within Canada when its liabilities to policyholders in Canada, including the full reserve for reinsurance value of all its Canadian policies, exceed its assets in Canada, then the company will be required to make good the deficit by adding to its deposits with the Receiver-General, or by creating a special trust in the hands of two or more persons resident in Canada or in a Canadian trust company. Hereafter no trustee, except a trust company, shall be approved by the Minister.

Companies doing marine business exclusively are not subject to the act.

Companies other than life, fire or marine, in order to do business in Canada, are required to obtain a license from the Minister of Finance, and the Treasury Board must in each case decide what shall be the amount of deposit.

Every company is required to file in the Department of Insurance, within two months after the 1st day of January in each year, a sworn statement of its condition and affairs as at December 31 of the preceding year.

The policy liabilities of life insurance companies doing business in Canada, under policies issued previous to January 1, 1900, are to be valued according to the British Offices Life Tables, 1893, O. M. (5), at 4 per cent interest, until January 1, 1915; and after January 1, 1915, by the same tables, with interest at 3½ per cent. All policies issued on or after January 1, 1900, are to be valued according to the British Offices Life Tables, 1893, O. M. (5), with interest at 3½ per cent.

Toward defraying the expenses of the Department of Insurance a sum shall be annually contributed by the companies, which sum shall be assessed *pro rata* upon the gross premiums received by each during the preceding year, such sum to be paid upon the demand of the Superintendent of Insurance.
